CRIOCM 2019

24th International Symposium on Advancement of Construction

Management and Real Estate

(29th November – 2nd December, 2019, Chongqing, China)

Call for papers (1st round of announcement)

The 24th International Symposium on "Advancement of Construction Management and Real Estate" in the context of big data and intelligence is held by the Chinese Research Institute of Construction Management (CRIOCM). This symposium serves to provide a platform for sharing the latest achievements, research outputs and advancement between frontier disciplines in China and overseas, offering important reference for advancement of construction management and real estate.

This symposium will be held at the School of Construction Management and Real Estate (CMRE), Chongqing University (CQU). CQU is one of the top 1% universities in China. It has been included in the "Double-First Class" initiative, which aims to build a number of world-class universities and disciplines by the end of 2050. The University was founded in 1929. It has over 5300 academic staffs and 47,000 students from six faculties in Science, Social Sciences, Humanities, Engineering, Built Environment, Information Science and Technology. Founded in 1981, the school of CMRE of CQU has a history of over 37 years. CMRE is one of the largest schools concerning construction management and real estate in China.

The city of Chongqing, where the CRIOCM 2019 will be held, is the youngest municipality and one of the five central cities in China. Chongqing is the industrial base in Western China, the economic and financial centre in Upper Yangtze River, and a city has many labels such as "the Mountain City", "the River Town" and "the Bridge City".

We look forward to your paper submission and to getting together at the CRIOCM 2019 in Chongqing!
